

St Collen's Church Proposed Improvements

St Collen's Church is at the start of a new period of change, with the implementation of new Mission Areas (MAs) for the parishes within the diocese. St Collen's is part of a group of four churches known as the Llangollen Group. The other churches in this group are St John's, St Tysilio's and Trevor Church. The Llangollen Group of Churches is also part of the Mission Area of Valle Crucis under the Archdeaconary of Montgomery. There are nine other churches in this Mission Area.

In order to fulfil the role of a key church St Collen's needs to effectively market itself, not just as a place of worship within the MA but also as a valuable community resource and a visitor attraction. We are proposing to implement a number of improvements to the building and put in place procedures that help ensure the sustainability of the church into the future.

We will be applying to a number of funding organisations for funding to implement the various strands of the improvement programme. With this introduction we have attached the various sections of the proposed work and we would very much like your feedback.

Please email any comments or thoughts that you may have on the proposals outlined to Father Lee Taylor - Email: frleetaylor@hotmail.co.uk.

If you have any further suggestions, such as to how you or any group or organisation that you are part of would like to use the church building or any other changes or improvements that you think could be done, please do email them as well.
